AVALON UREA CREAM +LACTIC ACID

Urea 10% w/w Lactic Acid 5% w/w

The right choice for
Very Dry Skin

UREA

Keratolytic emollient

LACTIC ACID

Naturally occurring
humectant in the skin

Urea cream+ Lactic acid specific actions:^{(1) (2)}

Hydrating effects:

Strongly hygroscopic (water-loving), draws and retains water within skin cells

Keratolytic effects:

Softens the horny layer so it can be easily released from the surface of the skin

Regenerative skin protection:

Direct protective effect against drying influences and if used regularly improves the capacity of the epidermal barriers for regeneration

Irritation-soothing effects:

Anti-pruritic activity

Penetration-assisting effects:

Increase the penetration of other substances, e.g. corticosteroids as it increases skin hydration
